DETAILED ACTION

Response to Amendment

1. The affidavit under 37 CFR 1.132 filed 07 September 2006 is sufficient to overcome the rejection of claims 7, 18, 20, 21, 52, 53, 56, 58, 60 and 61 based upon Kunugi, 2002/0022440.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 7, 18, 20, 21, 52, 53, 56, 58, 60 and 61 are finally rejected under 35 U.S.C. 102(b) as being anticipated by Southwick, 5,782,675. Note that nozzle **190**, is part of fluid discharge unit **152**, that is slidably carried by a support that includes actuator **154**, the unit being moveable along the support, in both vertical and horizontal (rotary) directions to discharge solution onto separate areas of the pad during a planarizing cycle.

Allowable Subject Matter

4. Claims 8 and 19 are allowed.

5. Claims 22, 54, 56 and 57 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not disclose or fairly teach the nozzle rotatably coupled to the support to be movable between a first position to discharge the planarizing solution at a first angle relative to a surface of the pad and a second position to discharge the planarizing solution at a second angle relative to the surface of the pad, the second angle being different from the first. The closest prior art, to Quek, '977, teaches that the nozzle rotates, but it does not change the angle of discharge.

Response to Arguments

7. Applicant's arguments with respect to claims 7, 18, 20, 21, 52, 53, 56, 58, 60 and 61 have been considered but are moot in view of the new ground(s) of rejection. Applicant's affidavit under 37 CFR 1.132 required withdrawal of the previous rejection, causing a new grounds of rejection, therefore, this action is made final.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
